

Changing the Inner Climate

Application for Scholarship

Name: _____

Address: _____

Date of Birth: _____

Occupation: _____

This workshop is intended to serve those who commit their personal growth as an instrument to enable the collective transformation and evolution. We see these people as a new generation of “leaders” emerging through the climate era.

The base fee for this workshop is \$250. We have four tiers of scholarship. Please indicate which level of scholarship you would like to apply for: \$50, \$100, \$150, or \$175. (The fee for the workshop is reduced to \$200, \$150, \$100, \$75). Please give a brief description of your current financial situation below.

We also would like to ask something from you in exchange. Please answer a few questions that may help us experience your being, your essence, and how you have been navigating the complexity and uncertainty of the climate crisis. Can we use some of your writings as materials to raise funds for this workshop? (Yes/No)

1. Tell us a little more about your personal background or experience related with your interest in the dynamics between the inner and outer climate.

2. Why are you drawn to the Resonance Code? What aspect of yourself are being called forward by this work?

3. The Resonance Code is a language that facilitates communication with Inter-Being, or its planetary incarnation, Mother Earth. Have you had experience in your life where you feel that you are in communication with the Inter-Being, or Mother Earth? Tell us more about that.

4. We plan to launch a fundraising campaign to raise money for this workshop. We will organize a post-workshop videoconference and facilitate dialogues between scholarship recipients and donors. Would you like to attend this event?
